## A HOMICIDE.

**A Fatal Dispute About a Stock Range in Jordan Valley.**  
The Boise Statesman has the following:

Charles Albert, a well-known cattle man in the Jordan Valley, and called "Spanish Charlie," was shot dead Wednesday, March 30th, by Jake Mussel, a sheep man. It appears that Mussel had been allowing his sheep to graze on a bit of range that Charlie claimed as his own private property. He therefore gave Mussel notice to remove his sheep, which was unheeded. Charlie then sent a messenger to Mussel, telling him that if he did not keep his sheep off that range that he would kill them. Mussel, on receipt of Charlie's message, armed himself with a Winchester, and taking his herder with him, started for Charlie's cabin. They found him in the saddle, some two or three hundred yards from the house, attending to some of his cattle.

"Did you say that you would kill me?" asked Mussel, as they approached.

"Are you going to let your sheep run on my range?" replied Charlie.

"Yes," said Mussel, "I am going to let my sheep run on that range."

"Then I will kill you," said Charlie, and so saying he turned and rode toward his cabin, where it is known that he kept one or two guns.

When about half way to his house, Mussel ordered him to stop, and on his refusal to do so, shot his horse from under him. Picking himself up Charlie continued on his way to the house, unmindful of Mussel, who again ordered him to stop. He had nearly reached the cabin when Mussel fired again, killing him instantly. Mussel then surrendered himself to the authorities in Baker City. Albert's father lives somewhere in New York.

The Silver City Avalanche says there were no other persons present at the time of the tragedy, and nothing is known about it save what Mussel tells himself.

## The President's Dilemma.

President Cleveland has a peculiar legal problem to deal with. A Mississippi had drawn a prize with his lottery ticket, but as the back of the ticket read "No ticket will be paid unless it bears the President's signature," forwarded the bit of paper to Mr. Cleveland to endorse, supposing the reference was to him and not to the President of the lottery company. The first impulse of the receiver was to send it back with a note of explanation, but the revised statutes provide, under penalty, that "no letter concerning lotteries shall be carried in the mail." There is no way, then, to communicate with the Mississippi except telegraphing for him to come to Washington or else making use of a special messenger.

## "Heap Good Law."

The Winnemucca Silver State says: Cinnabar Jim and two other noble men from Mill City brought 480 rabbit scalps to town yesterday. They say "Car-on man heap good; make 'em rabbit ears, and be heap eat rabbit."

## Reliable and Always the Same.

Brandreth's Pills are the oldest, safest, and best blood purifier and purgative known. They are vegetable, therefore harmless. They are always the same and always produce the same effect. Other purgatives require increased doses and finally cease acting altogether. A course of one or two of Brandreth's Pills taken each night is a positive cure for constipation, headache, and all bilious disorders. If you can't take them plain get them sugar-coated.

## Effects of Artesian Water.

Antelope Valley, Los Angeles county, formerly known as a barren desert, now has Lancaster for its center, with some six settlements tributary. Artesian flowing water is found everywhere at an easy depth.

## SHILB'S CURE will immediately relieve Croup, Whooping Cough and Bronchitis. Sold by Osburn & Shoemaker.

## Enjoy Life.

What a truly beautiful world we live in. Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and liver complaint are the direct causes of 75 per cent. of such maladies as biliousness, indigestion, sick headache, costiveness, nervous prostration, dizziness of the head, palpitation of the heart and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10c. Try it.

## Thousands of Dollars.

Are spent every year by the people of this State for worthless medicines for the cure of throat and lung diseases, when we know that if they would only invest \$1 in SANTA ABIE, the new California discovery for consumption and kindred complaints, they would in this pleasant remedy find relief. It is recommended by ministers, physicians and public speakers of the golden state. Sold and guaranteed by Osburn & Shoemaker, Reno, Nev., at \$1 a bottle. Three for \$2.50. The most stubborn case of catarrh will speedily succumb to CALIFORNIA CAT-R-CURE. Six months' treatment for \$1. By mail \$1.10.

## Good Results in Every Case.

D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all coughs and colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery. Trial bottle free at S. J. Hodgkinson & Co's Drug Store.

## An End to Bone Scraping.

Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctor told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well." Electric Bitters are sold at 50 cents a bottle, and Bucklen's Arnica Salve at 25 cents per box by S. J. Hodgkinson & Co's.

## Notice!

Manning & Jaques have been commissioned by the Reno Gas Co. as a competent firm to do their gas-fitting, and the company would recommend parties having work of the above character to do, to employ only the best workman, thereby saving much annoyance and expense.

## Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body. It is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Gels were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 50 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

## An Absolute Cure.

The ORIGINAL ABETINE OINTMENT is only put up in large two-ounce boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and skin eruptions. Will positively cure all kinds of piles. Ask for the ORIGINAL ABETINE OINTMENT. Sold by Osburn & Shoemaker at 25 cents per box—by mail 30 cents.

## Sudden Death.

SATURDAY, APRIL 9, 1887

The Coercion bill which the Conservative Government has brought forward for Ireland is a sweeping one. According to Bradstreet's it introduces an inquisitorial system, giving Magistrates power to examine witnesses on oath even where no persons are charged with crime. This provision is one foreign to the genius of the English law. To meet the difficulty of failing to get verdicts, the bill proposes to abolish jury trial altogether in certain classes of cases. It secures to the Government a thorough control over the press by giving Magistrates the power of summary conviction in cases of incitement to the commission of such acts as boycotting, conspiracy and rioting. Certain grave classes of crime committed in Ireland were to be tried in England under the bill as originally framed, but the Cabinet has decided to abandon that provision, owing to the opposition it excited. The Viceroy of Ireland is to have power to proclaim societies found to be disturbing peace and order. The Government asks that the permanency of the bill be not limited by any fixed time. Naturally, the Government's proposition has aroused much opposition. It is denounced generally by the Radical press and Radical societies throughout the country. The measure is vehemently opposed by Mr. Gladstone as the worst proposition yet brought forward for dealing with the Irish difficulty.

[It is conceded by many leaders in the two great political parties of the nation that Mr. Cleveland will be renominated for a second term. Talking on this matter a Washington correspondent of the Augusta, (Me.) Journal says:

I have asked a great many public men through the past season who would be the Democratic nominee in '88. Nearly all of both parties agree that Mr. Cleveland will be renominated. When asked "why," the response almost invariably is "because there is no one else they can nominate." But I do not see the sense of this. The President is disliked by the majority of his own party. I know from personal observation that nearly all the Democratic Congressmen are disgusted with him and that they only refrain from out and out opposition because it would be bad for the party. If his own party, then, is bitter against him, how can he hope for a renomination? And if renominated he could not possibly be re-elected. Notwithstanding his efforts to capture the South, the Southern people avoid him. Their absence from his receptions is very noticeable, and I am surprised at his decided unpopularity in Virginia. He could not begin to carry that State to-day. Though that party is notorious for putting its foot into it, I do not believe it will deliberately play into the hands of the Republican party by renominating Grover Cleveland.

Movements are said to be on foot in London to establish an English colony in the southern part of California, near Los Angeles. The plan of colonization is original. Several English churches expect to buy land and build churches thereon, while in the meantime they will sell it in lots to Christian immigrants. If the Coercion bill becomes a law there will be great distress in Ireland, and during the coming summer the immigration from that country will be very large. The working classes in England are also in great distress, and it is expected that skilled workmen will emigrate to the new colony by shiploads.

### A Proposed Confederation.

PITTSBURG, Pa., April 9.  
The coal miners throughout the country are discussing the formation of a gigantic organization by an amalgamation of the National Federation of Miners and the miners of the National Assembly of Knights of Labor. Heretofore considerable jealousy has been manifested between the members of the organizations, but lately the officials have shown a disposition to agree upon a plan for mutual benefit. At a recent meeting of the Executive Board of the Federation of Miners, a resolution asking for a conference with the Executive Board of the Miners Assembly was adopted. The plan of the federation is that the two Executive boards shall meet and draw a set of rules or laws for the government of mining affairs. These laws are to provide for a representation from both the open and secret branches of the organization. No person is to serve as an officer unless he becomes a member of the Knights of Labor. It is understood that the idea is to have the federation still retain its organization, with the understanding that all of its members shall also be Knights of Labor. This will also likely bring all the outside Knights into the federation union. The miners would then bring together both organizations. It is likely the K. of L. organization will agree to a conference.

### Blaine's Condition.

ST. LOUIS, April 9.  
A special to the Globe-Democrat from Fort Gibson, Indian Territory, says: "Blaine was suffering from a severe cold on Sunday evening when he arrived at Gibson Station. A Government ambulance met him at the station, but only the ladies of the party could be taken to the post. The next morning the ambulance returned for Blaine. He was able to sit up in the conveyance, but looked pale and thin. On reaching the post he went to the residence of Col. J. J. Coppinger, and has not been out of the house since. Dr. Charles P. Berne, the post surgeon, referred all questions to Col. Coppinger, and that gentleman has little to say, as he did not wish to create unnecessary alarm. He said Blaine is suffering from a heavy cold, accompanied by a remittent fever, and was quite sick. Colonel Coppinger repeated that Blaine was quite sick. The whole party expected to leave for the North early this morning. The soldiers detailed to sit up with Blaine last night, report him quite sick, but could not say whether his symptoms were alarming or not.

### The Chicago Carpenters' Strike.

CHICAGO, April 9.  
Only 19 contractors responded to the call for a mass meeting of master carpenters yesterday afternoon to independently consider the demands of the strikers. The session resulted merely in the contractors present agreeing to attend another meeting to-night. Fights between the strikers and imported carpenters were numerous yesterday, the non-union men being compelled to quit work in a number of instances. Nine strikers were arrested on this account, and once there was considerable excitement, but no accident resulted from the exchange of shots between the policemen and strikers. The Knights of Labor element among the strikers is not at all satisfied with the way matters are being conducted by the Carpenters' Council. They think the Carpenters' Brotherhood is assuming too much authority in the matter. A meeting of Knights will be held to-day, at which it is possible the strike will be broken, and a great part of the 8,000 men will decide to resume work on Monday.

### A New Organization.

PITTSBURG, April 9.  
The requisite number of Assemblies of the Knights of Labor signed yesterday for the formation of a State Assembly of Iron workers. The new organization will embrace nothing but these workers, and is reported to be the strongest labor society in the State. It will number, its advocates say, not less than 25,000 men.

### A Closely Contested Game.

ST. LOUIS, April 8.  
The second game in the world's championship series, proved to be one of the most brilliantly and stubbornly contested struggles ever played, and the Chicagoes were defeated only after a hard battle. Carruthers pitched a magnificent game and was ably supported throughout. St. Louis 7, Chicago 4.

### Captain Samuels on the Yacht Race.

NEW YORK, April 9.  
Captain Samuels, of the schooner yacht Dauntless, defeated by the Coronet in a race across the Atlantic, arrived here yesterday. He sailed from Queenstown on Wednesday of last week. Captain Samuels says with regard to the reported trouble, that the entire story was a complete fabrication. "My relations with Mr. Colt were of the pleasantest nature throughout the entire trip, and nothing occurred to mar the friendly feeling that existed between us. My only reason for leaving him was that I had fulfilled my engagement entered into with the owner of the Dauntless, and there was no reason for my remaining abroad any longer. The trip across was the worst that I have experienced in any of my travels. The sailors were not dry a moment from the time we left New York until after we dropped anchor in Cork harbor. When asked to give his opinion of the cause of the Dauntless' defeat, he replied that the Coronet was a much better boat and the Dauntless was fairly outtailed. "The Coronet," he continued, "is a magnificent craft, and I knew it would be a hard race before we started. My idea in letting the Coronet take the lead was to prevent everyone from being discouraged before the yachts got out of sight, as they would have been, had I taken the lead. I did not give up the race until I heard that the Coronet was nearly 24 hours ahead of us."

low as those by water, were when combined with the added advantages of speed, sufficient to secure a large proportion of business. Those rates of themselves would not be remunerative, that is to say, if our whole carrying business was conducted on the same basis, it would not pay the operating expenses of the road and interest on the investment. But as we are compelled to keep our track and rolling stock and operate our road anyway, the through business even at those low rates, contributes toward paying the expenses of the road to that extent and operates in a measure, to enable us to make lower rates on local business than might otherwise be possible. Now, however, we are brought face to face with this proposition. If the law is to be literally enforced and we cannot make a special rate on this through business without making a corresponding rate for all our local business, we shall be compelled to choose between local and through business, and in that event naturally we will have to forego the through business."

### The Boycott and Strike Off.

SAN FRANCISCO, April 9.  
The striking carmen, Knights of Labor and trades unions, who, four months ago declared a boycott against the Geary street railroad, have declared the strike and boycott against that road off.

#### British Haytian Matters.

SANTIAGO DE CUBA, April 9.  
News has been received from Hayti to the effect that an amicable settlement of British claims may be expected. The Haytian Assembly had two special sittings, one public and one secret, to consider the demand made by the British special agent now in Hayti. President Solomon declines taking action till he obtains an expression of opinion from the Assembly. The English claim \$1,000,000. The Island of Tortugas was offered to the British Government in settlement of this claim three years ago.

### The Reported Lost Sealing Steamer.

HALIFAX, April 9.  
Advices from St. Johns indicate that a schooner which arrived there this morning, reports that the sealing steamer Eagle, which was reported lost with 300 persons on board, was taking seals in White Bay on March 24th.

### A Large Gathering.

LONDON, April 9.  
The anti-coercion meeting to be held in Hyde Park to-day promises to be the biggest out-door political meeting ever held in London.

### Egg-Rolling at the White House.

NEW YORK, April 8.  
A Washington special says: "On Easter Monday Mrs. Cleveland will come in from Oakview, where she has been for the last few days, to see an egg-rolling on the White House grounds. This will be a novel spectacle to her, and is one of the most curious and distinctive children's customs in the world. Egg-rolling at the East is common in the country where Washington children, for longer back than anybody can remember, should this day take possession of one particular spot, as is queer as anything in the mysterious regions of child myths and customs. It is required of every President that, besides giving up his private grounds on that day, he shall come out at least once during the afternoon and show himself on the south porch. No doubt, Franklin, as the children call Mrs. Cleveland, will be anxiously expected on Monday, and her arrival will be hailed even more than the President's."

### WESTERN DISPATCHES

#### Bloody Work of a "Model Domestic."

SAN FRANCISCO, April 8.  
Joseph Billou, husband of the lady murdered by the Chinese cook at St. John, Colusa county, yesterday, and who has been attending a meeting in this city of the Northern California Normal School Site Commission, left for his home to-day.

A dispatch received to-day from Chico, giving the latest particulars of the killing of Mrs. Billou, shows that the Chinaman, Ho Ah Heung, who is only 18 years old, fired the shots through the door while Mrs. Billou, her two daughters and Mr. Weaver were at supper. The first shot from the rifle was fired at Weaver, struck him in the left shoulder, passed through his body and came out just above the heart. Mrs. Billou turned to see whence the shot came and received a bullet through the heart. She instantly fell dead. Weaver, though seriously wounded, managed to shut the door.

The Chinaman then fired a shot through the closed door, but without effect. The door was barricaded with a table and chairs, but the Chinaman got an axe and began to cut in the panels. At this point he appeared to change his mind, and instead of proceeding further, left the immediate vicinity of the house.

Annie Billou, a little daughter of the murdered woman, went to the door to see which direction the Chinaman took in his flight. The Chinaman had not gone far, and seeing her in the doorway fired at her, but missed. She quickly retreated and closed the door.

Meanwhile the other daughter had managed to leave the house and give the alarm at St. John. Pursuit was immediately given, but up to this morning the murderer had not been captured.

Weaver's wound is very serious, and doubts are entertained of his recovery. No cause is known for the atrocious crime, except that the Chinaman had been forced to assist in the house-cleaning, to which he had demurred. He was in the employ of the family for several years as cook.

### Stanford On the Inter-State Commerce Law.

SAN FRANCISCO, April 9.  
The Alta this morning publishes an interview with Leland Stanford, President of the Southern Pacific Company, regarding the effect of the enforcement of Section 4 of the Inter-State Commerce law on the commerce of San Francisco. He said a "literal enforcement of the fourth section of the Inter-State Commerce law would be simply ruinous and destructive to our commerce, not only with China and Japan, but with Australia and all other countries whose trade naturally comes to us by way of the Pacific Ocean. You see the through freight business is but a small proportion, probably not more than 15 per cent. of our whole carrying trade. It is upon our local business we depend for profit. This may be said of all roads and will be true of every road that reaches the Pacific Coast, brought as we are by our location, into competition with the great water ways of the ocean, we cannot make a rate, where the means of transportation by water and by rail are co-existent. The water way, which is naturally the cheapest means of transportation, will always make a rate, and the railroads must follow or forego business. Now our agents in China and Japan are brought face to face with competitive rates by way of the Suez canal, by water and rail across the Isthmus of Panama and by all water around Cape Horn. Hitherto we have tried to meet that competition by giving rates which, if not a

BREVITIES.

**Local and General News.**  
It is expected that the mills at Glenbrook will start up about the 20th inst.  
A sprinkle of rain during the past night laid the dust nicely. About three inches of snow fell at Truckee.  
An Easter concert will be given at the Methodist church to-morrow evening commencing at 7:30. All are cordially invited.  
The Commissioners of White Pine county, on Monday last, issued bonds for building a court-house and hospital at Ely, the new county seat.  
Louis Engler, of Tuscarora, who went to Carson yesterday, is said to seek the appointment of Commissioner of Elko county, to fill the vacancy caused by the death of Martin Smith.  
The editor of the Carson Appeal rather more than intimates that the Washington correspondent of that paper is drunk, and evidences his sincerity by condensing a two-column letter into six lines.  
Passengers on this morning's east-bound overland reported a steady rain yesterday along the line of the C. P., all the way from San Francisco to where snow commenced falling on the Sierras.  
The Consolidated California and Virginia Company has a balance of about \$353,000 in the treasury, including \$106,394 in coin and \$191,591 in unsold bullion, after paying the dividend, and with a large portion of the March expenses paid.  
**The Carleton Opera Company.**  
The Carleton Opera Company will appear at the Nevada Theater next Saturday evening in "The Mikado." Of this excellent combination the San Francisco Call of a recent date says:  
The success of this admirably equipped company in San Francisco has been greater than the most sanguine expectations. The receipts at the box-office have been opulent, and the prestige of the organization is more brilliant than ever before. It is not to be wondered, therefore, that Mr. Carleton looks forward to his return in January, 1888, with greater than ordinary pleasure.  
Reserved seats are now on sale at Thurston's book store.  
**The Tuscarora Explosion.**  
The Times-Review says that the explosion at the Nevada Queen hoisting works last Wednesday morning, resulted from the ignition of one or two boxes of giant powder, placed near the boiler, exploding itself as well as the boiler, fragments of the latter being thrown a distance of 30 or 40 yards.  
**Bringing Gladness.**  
To millions, pleasing their palates, and cleansing their systems, arousing their livers, kidneys, stomachs and bowels to a healthy activity. Such is the mission of the famous California liquid fruit remedy, Syrup of Figs. Fifty-cent and \$1 bottles for sale by Wm. Pinniger, Reno, Nevada.

LOCAL NEWS.

Happenings of the Day in Reno and Vicinity.

**The Washoe Lake Dead Fish.**  
The dead fish found recently on the shores of Washoe Lake are accounted for by one who has resided on the lake for more than 20 years by the fact that in the bottom of the lake are thousands of growing weeds, and when the body of water lowers in the Fall, and in the Winter freezes over, the fish become entangled in the weeds, and being unable to extricate themselves, they starve and freeze to death. Consequently, when the ice breaks up in the Spring they are washed ashore.

**Resigned His Charge.**  
Rev. G. M. Spencer, who has been pastor of the Congregational Church for nearly three years, has resigned his charge and will spend some time in San Francisco before assuming other pastoral duties. Reverend Spencer is an able and efficient worker in his cause, and during his stay in Reno made many warm friends out of, as well as in, the church, and carries with him the confidence as well as the kindest wishes of those with whom he was brought in contact while here.

**Records of Recent Transfers.**  
C. C. Powning to W. D. Phillips, lots 1 and 2 of block J, Powning's addition; consideration, \$600.  
Helen L. McClellan to W. Sanders, lots 4 and 5 and houses thereon, block V; consideration, \$1,000.  
Thomas J. Harris to D. C. Simons, house and lot on the corner of Walnut and Nevada streets; consideration, \$1,750.

**The Nevada Theater.**  
The McGibeny Family drew only a fair-sized house last night. The entertainment was deserving of a more liberal patronage, as it was highly enjoyable and possessed many meritorious features. All of the members, even to little Dot, a mere infant, were proficient in their parts. The little folks created considerable mirth.

**General Jaques.**  
Governor Stevenson has appointed Nathaniel P. Jaques Brigadier General of the First Brigade, N. N. G., vice William Webster, resigned. Mr. Jaques is an old veteran and Commander of the Grand Army Post at this town. The appointment is a most excellent one and a deserved compliment to the worthy ex-soldier.

**Change of Time N. & C. R. R.**  
On and after Monday, April 11th, the trains over this road connecting with Halstead and Sherman's stage lines will leave Reno at 7:30 A. M., and returning, arrive here at 5:30 P. M.  
E. L. HERIOT,  
General Manager N. & C. R. R.

**Bullion Shipments.**  
On Thursday last a carload of bullion was shipped to San Francisco from the Reno reduction works. This afternoon another carload will be sent down. The aggregate value of the two shipments is about \$7,000.

**I. O. O. F.**  
Truckee Lodge, No. 14, I. O. O. F., have elected the following delegates to the Grand Lodge of the above Order: C. W. Jones, J. C. Smith, F. C. Updike, John Bowman, F. H. Mulcahy and H. P. Brown.

**Sheep and Wool.**  
In some parts of Texas considerable losses on account of the drouth of the Winter are reported. The Montana Wool Grower estimates the dip in that Territory a little short of 8,000,000 pounds, or nearly 1,000,000 pounds more than last year, notwithstanding losses by reason of the severity of the Winter. Estimating the deaths of sheep at 20 per cent. of the 1,500,000 which were owned last Autumn, there still remains 50,000 more in the Montana flocks than at last year's shearing time. It is difficult to get exact information about the condition of the flocks, and reports of losses are often exaggerated.  
The movement of the California Spring clip is likely to be interfered with considerably by the advance in freight rates. Shipments have been made within the year to points east at 62 1/2 cents per 100 pounds from San Francisco, and the highest rate within 10 years has been \$2 75, while the charge which is now proposed is no less than \$5 50, or 54 cents per pound on washed and scoured wool indiscriminately. If these figures hold, apparently the only way to get California wool to the Atlantic Coast will be by vessel around Cape Horn.

**State Land Office.**  
During the week ended yesterday there were filed at the State Land Office, Carson, 26 applications for land, embracing 10,749.55 acres, the first payments on which amounted to \$2,687 41. The partial payments made on contracts aggregated \$396 20, and the interest payments on contracts, \$230 84. Total cash receipts for the week, \$3,314 45. Of the above acreage 7,250 acres were applied for by residents of Los Angeles and San Diego counties, Cal. Non-mineral affidavits covering 17,500 acres distributed among 94 applicants were made out and forwarded for signature and oath, as required by the Department at Washington.

Governor Stevenson is in town to-day, looking after business matters and shaking hands with friends.  
Mrs. Charles F. Moeller left on last night's train for an extended visit to friends in California.  
J. W. Mackay, Col. Boyle, Col. M. N. Stone, and several other Virginians were passengers for the Bay last night.  
Senator John P. Jones and family, and Miss Jessie M. Jones of Cleveland, Ohio, arrived last night and were met by E. J. Gorham and H. M. Gorham. This morning all departed for Gold Hill.

**Inter-State Commerce.**  
Before the Inter-State Commerce Act took effect the railroad fare between San Francisco and Palisade was \$33 05. A reduction was expected under the new order of things by the traveling public of that section, and it was made. The fare between the two points named has been reduced to \$33.  
Winnemucca Silver State: The new tariff schedule, which goes into effect to-day, makes no changes whatever in local rates on the C. P. R. R. The rates from here to Ogden are the same as from San Francisco to Ogden. No more and no less.  
Elko Independent: The fare from Elko to San Francisco is \$35 55 and from Elko to Ogden, \$20 50. If you don't care to pay it you can walk. The freight from San Francisco to Elko is \$2 48 per 100 pounds, and from Ogden to Elko, \$1 79. If you don't wish to pay it you can send a team and have your freight brought by "slow freight." We don't have to pay any higher rates than we did before, thanks to the benign influences of the Inter-State Commerce law.

**The Silver Market.**  
The falling tendency in the London market has continued to exert its influence during the current week and the nominal quotations for bars have descended to the low level of October last. The allotments of India council bills were last week made at a decline of 1-16d per rupee from the former week's figures. So far as can be learned, says Bradstreet, the controlling feature of the situation is still the unwillingness of buyers to come forward, based, it would seem, on the belief that prices are destined to fall still further. This, however, may or may not prove the fact, and it would appear will depend largely upon whether there is a degree of pressure in connection with India exchange similar to the situation of last year in the same connection.

**Cleveland's Confidential Correspondence.**  
All the President's letters pass through the hands of Mr. Hendley, an expert stenographer, who has charge of the White House mail. He sends those in the hand-writing of Mrs. Cleveland, Miss Cleveland, Mrs. Folsom, "Cousin" Ben or "Best-man" Bissell direct to the President unopened. All others, no matter how addressed, as "private," "confidential" or "personal," are opened, read and indexed. A knowledge of this fact will tend to discourage "confidential" correspondence with the White House.

**Hotel Burned.**  
A telegram received to-day by Mrs. R. L. Fulton from her husband, gave the account of the burning last night, of a hotel at Wells in which Mr. Fulton and Frank Rockwell, of Wells, Fargo & Co., were sleeping. From the account telegraphed, the lodgers of the burned house must have escaped very scantily attired.

**Grand Lodge Delegates.**  
At a meeting of Carson Lodge No. 4, I. O. O. F., held on Wednesday evening last, the following Past Grandes were elected to the Grand Lodge: A. M. McCabe, H. H. Bence, Max Aronson, George R. Dobbs, S. Gulor and George Tuffy.

**Merit Will Tell.**  
Was never better demonstrated than when "Fryer's Abietene Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.  
Asthma and phthisis are instantly relieved by taking a few doses of Fryer's Abietene Cough Balsam. (It contains no opium.) Price, 75 cents. Sold by W. Pinniger, Reno, Nev. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

These cool mornings and evenings remind you that a few loads of J. F. Aitken's dry fire-wood should be ordered before your wood-house becomes empty.  
A weekly bath in one of J. Belz's neat and capacious tubs is a luxury that all should enjoy at least once a week, and his tonusorial work is not excelled by anybody.  
For a nice tender roast of either beef, mutton or pork, which will not require all-day to cook, patronize J. Frazer who deals only in the best to be had for coin.  
For the best of everything in the line of boots and shoes, patronize H. A. Winton, who handles only the best. All kinds of repairing promptly and cheaply done.  
The Palace Restaurant is in constant receipt of Chesapeake Bay oysters in the shell, which are supplied to customers as low as in any town this side of the Rockies.  
E. C. Leadbetter's "Aunt Abby's" rolled cream oats is the finest breakfast dish yet produced. He also has Sicily lemons, bananas and a large supply of Honey Lake apples.  
C. M. Fassett, druggist and assayer, is ready for business. Scientific pharmacy in all its branches. Assays of rocks, minerals, bullion, drugs, etc. Physicians prescriptions a specialty.  
The excellence of their goods and their promptness in filling all orders, are the reasons why Coffin & Larcombe are rapidly building up a lucrative grocery trade. All goods warranted as recommended.  
It is becoming a regular habit among many people of the town to take their Sunday dinners at the Depot Hotel, the reason being that they get a better meal for less money than they can cook it at home.  
For the largest and best assortment of boots, shoes and hats to be found this side of San Francisco, examine the stock of John Sunderland. His prices will be found as low as the same quality can be had anywhere.  
Wallace & Beebe, whose store is located on the corner of Virginia and Plaza streets, guarantee to supply all comers with the best family groceries as cheaply as the same quality can be had on this side of the Sierras.  
See that your wife and daughters each have one of those beautiful Easter cards to be seen in C. A. Thurston's show window. Mr. Thurston also carries a full stock of all kinds of the best stationery, blank and miscellaneous books.

**In Town and Hamlet.**  
The seeds of intermittent and bilious remittent fever germinate and bear evil fruit. No community has altogether escaped it. In populous wards of large cities and sequestered hamlets, in the suburbs stagnant pools in sunken lots breed it. There is at once a remedy and a means of prevention. Its name is Hostetter's Stomach Bitters, which is, without peradventure, the most potent antidote in existence to the malarial virus. Fortified with this incomparable, saving aperic, miasmatic influences may be encountered with absolute impunity. Disorders of the stomach, liver and bowels, begotten by miasma-laden water, or any other cause, succumb to the beneficent corrective named, and rheumatic, kidney and bladder troubles are surely removable by its use when it is given a persistent trial.

They Were Genuine.

A man came to Little Rock several days ago for the purpose of starting a daily newspaper, but as he lost all his money under such sounds as "card 21" and "ace of spades," he was forced to sell his jewelry. At last he was driven to such an extremity that he offered to sell Bismark's autograph. He said that he would take ten dollars for the card which bore his signature. He hated to part with it but he saw no other chance of getting money. "I don't care for Bismark's signature," said a gentleman, "for I believe in patronizing home institutions. Now, I'll tell you what I'll do. I am collecting the autographs of well-known Arkansaw men and I'll give you five dollars for the signature of the secretary of state. He is very peculiar and has often refused me, but by persistence you might get it."

The man said that he would try. He went away and after an hour had passed, he returned. "Did you get it?" "Oh, yes." "Did you have much trouble?" "Considerable. He swore at first that I should not have it, but I went to work on him in earnest and at last he yielded. Here it is," handing the gentleman a card.

"Now let me see Bismark's signature. Ah!" he added, when the great German "fist" was shown him. "his handwriting resembles that of our secretary."

"That's a fact, there is some resemblance." "Are you sure the signatures are genuine?" "Oh, I know they are. You may have both of them for fifteen dollars."

"Cheap enough." "Dirt cheap. What do you say?" "As I said before, I don't care anything about Bismark, but if I knew the secretary's autograph to be genuine, I would buy it."

"I'll swear it is genuine. Why I saw him write it." "You may be honest, but somehow I suspect you." "Why so?" "Because I am the secretary of state."—[Arkansaw Traveler.

Working Women's Clubs.

The experiment of working-women's clubs, which was begun in New York about four years ago, has succeeded far beyond the expectations of its promoters. In the parent society during the past year there has been an average attendance of 106 members. They have rooms in the central part of the city. With dues amounting to but 25 cents a month, and some extra fees for the payment of teachers, they enjoy advantages which were formerly out of their reach as individuals. Among the occupations which have been exercised to advantage by the parent club and the many branches that have sprung up in New York and vicinity, are dressmaking, type-writing, millinery and drawing.

More than two-thirds of the Expense of putting up and Feeding Hay saved by CLIMAX RAKE, CLIMAX LOADER, CLIMAX STACKER, CLIMAX HAY RACK, with attachments for unloading into feed racks.

FOR HANDLING HAY OR GRAIN, the Climax Machines excel all others by great odds. Each and all of these inventions are warranted to do all claims for them. They are no experiment, but HAVE BEEN TRIED AND TESTED by the actual work of hundreds, and received the unqualified indorsement of all.

DAYTON, NEVADA, FEBRUARY 6, 1887. This is to certify that last season we used the Climax Stacker in putting up 1000 tons of hay, mostly blue joint; that it did its work well, and in its estimation is not equalled by any stacker or hay-lifting appliance on the coast.
